Dear Mr. Dahlin,

I delayed answering the enclosed to be certain. The delay was caused by the time required for making a dummy and determining weight, a cost factor to stores.

The book will be 312 pages, ~~retail price~~ retail price $8.00.

It will also include facsimiles of CIA evidence suppressed for 13 years. Some of this is in the form of handwritten notes showing the CIA knew the crime was not committed as officially alleged. It said nothing about this.

From these formerly secret records obtained under the Freedom of Information Act there is also an account of how former CIA Director Allen Dulles, as a Warren Commissioner, instructed the CIA on how to avoid being responsive on the question of Oswald as an intelligence agent. It worked, too!

Sincerely,

Harold Weisberg
